FIRE wise EST. 1979

NEW COAT HIGH TEMP PAINT

Firewise New Coat High Temp Paint is specially formulated for wood stoves, fireplaces, and heaters, delivering a durable satin black finish that withstands temperatures up to 500°C. It restores and protects high-heat surfaces with ease and long-lasting performance.

With a built-in primer for superior adhesion, this tough coating resists chipping, fading, and peeling. Even under prolonged heat. Easy to apply, it's ideal for refreshing heaters, fireboxes, BBQs, exhausts, and other metal surfaces exposed to extreme temperatures.

FEATURES:

1. Extreme Heat Resistance
2. Strong Surface Protection
3. Sleek Satin Black Finish
